-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-29, drawn to an apparatus for the firing of a cartridge for firearms, munitions for firearms, and a method for securing cartridges for firearms.

Group II, claim(s) 30-31, drawn to a method for securing cartridges for firearms.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is the release of a cartridge/munition by the transmission of predetermined data. This element cannot be a special technical feature under PCT Rule 13.2 because this feature is shown in the prior art. U.S. Patents 6,760,992 and 6,283,034 both teach the releasing of a cartridge/munition by the transmission of predetermined data. U.S. Patent 6,760,992 and 6,283,034 specifically teach the transmission of predetermined data between an apparatus located outside of a cartridge/munition to an apparatus arranged within a cartridge/munition in order to release said cartridge as claimed in claims 1-16 and 27-31. Further, U.S. Patent

6,283,034 specifically teaches that the apparatus arranged outside of said cartridge/munition can be arranged within a firearm as claimed in claims 17-26.

A telephone call was made to Nickolas Westman on March 28, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made (Mr. Westman's voicemail indicated that he was not available most Fridays). Due to the Office's time constraints related to this particular application it was deemed appropriate to submit the instant restriction via mail.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GABRIEL J. KLEIN whose telephone number is (571)272-8229. The examiner can normally be reached on Monday through Friday 7:15 am to 3:45 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 571-272-6873. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
